DIALOG CARDS TEMPLATE

The Dialog cards template allows authors to create activities based on images, sounds and text which can help learners to memorize words, expressions or sentences. Learners are presented a card with two sides. On the front side of the card, it can be displayed a hint for a word or expression and on the back of the card the learners can reveal a corresponding word or expression.

[Check the tutorial](#)

[Check the H5P Example](#)

[Check ATS Example](#)

Tips

- Keep the Hint text as simple as possible.
- Always fill in the *Alternative text for the image* to allow screen readers to view and read the content.
- You can upload an audio file associated to the hint to help learners to identify the word or the expression.
- You can randomize the sequencing of the cards by activating the option

Randomize cards

Enable to randomize the order of cards on display.
