FIND MULTIPLE HOTSPOTS

The Find Multiple hotspots template allows authors to create an image-based test where the learner need to find the correct spots on an image by clicking on zone defined as a hotspot.

[Check ATS Example](#)

Tips

- Always fill in the **Hotspot Name**.
- Always specify the **number** of correct hotspots that need to be found for question completion.

Notice!

In the example provided the audio file is not part of the H5P template. To add an audio file, you can use the **Description** section of the activity.
