# WHAT IS H5P?

## Create

Richer HTML5 Content  
in Existing Publishing  
Platforms

## Share

Content Seamlessly  
Across Any H5P  
Capable Site

## Reuse

Content accessed directly  
from the browser  
at any time

### INCLUDEME

621547-EPP-1-2020-1-RO-EPPA3-IPI-SOC-IN

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

# HOW TO CREATE AN ACTIVITY!

1. Access mdl.includeme-project.eu and login into the Moodle platform using the credentials provided.
2. Click on the dedicated section.
3. Select an available course.

4. Click on “Turn editing on” button to activate the editing mode of the platform.

Examples

Home / My courses / examples-en

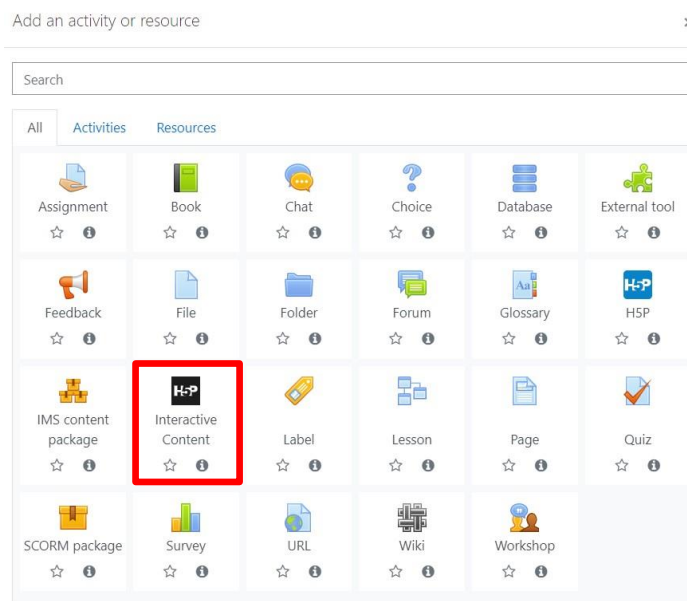

5. Click on “Add an activity or resource” button to open the H5P option.

Examples

Home / Courses / ATS / examples-en

6. Click on “Interactive content” option to open the H5P templates.

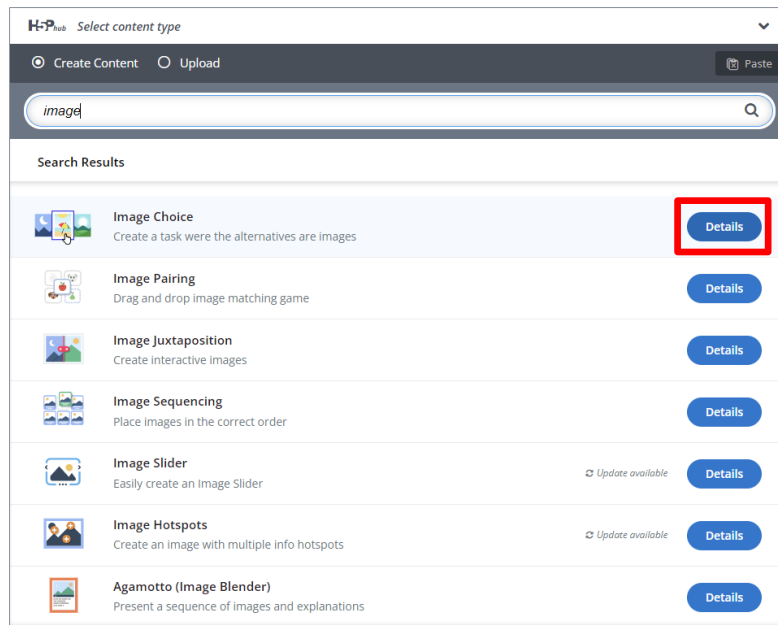

## INCLUDEME

621547-EPP-1-2020-1-RO-EPPA3-IPI-SOC-IN

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

7. Scroll into the H5P list or search the template and click on the title of the template (e.g. Image Choice) to open the editing form.

8. Fill in the form of the selected template and click on “Save and display” button to view and test the activity.

# IMAGE CHOICE TEMPLATE

The Image choice template allows authors to create question and answer activities where the answers are in the form of an image. Students must click on one or more questions, as defined, to answer to the question.

[Check the H5P Example](#)

[Check ATS Example](#)

## Tips

- If you add an image in the question section as well, make sure the image is at a low resolution, no more than 200px.
- Always add alt text for images in the answer section.
- A question can have one or more answers. Activating the correct answer is done by ticking the option **Correct**, which is in the box for each answer.
- To reduce the size of the images that appear in response, click on the Behavioural changes section and select the 16:9 option from the Aspect ratio field.
